Education	<b>Sri Venkateswara University</b> , <i>B.Tech in chemical engineering</i> Tirupati, Andhra Pradesh
Skills	<b>MERN Stack:</b> node JS, Mongo DB, React Js, Java Script, html-5, css-3, Bootstrap
Projects	<p><b>Food Delivery App</b>, <i>MERN Stack</i> A full-stack food delivery application built end to end. The app allows users to browse through a wide variety of restaurants, view menus, and place food orders online. It provides a seamless experience for users . Key features include user authentication, restaurant and dish filtering and secure payment integration. <a href="https://frontend-k8cf.onrender.com">https://frontend-k8cf.onrender.com</a></p> <p><b>E-commerce Shopping Website</b>, <i>MERN Stack</i> A full-featured e-commerce shopping platform built end to end. The app offers a seamless shopping experience, allowing users to browse products, add items to the cart and Wishlist , and complete secure transactions. <a href="https://proj2-front.onrender.com">https://proj2-front.onrender.com</a></p> <p><b>Employees Register Website</b>, <i>MERN Stack</i> An employee management system built end to end. App allows employees to efficiently register and manage employee information. The platform provides features for adding, updating, and removing employee details with a secure authentication system. <a href="https://employreact.onrender.com">https://employreact.onrender.com</a></p> <p><b>Weather App</b>, <i>Java Script, API, HTML, CSS, Bootstrap</i> A weather forecasting web application built end to end . The app provides real-time weather information for any location, allowing users to search for current conditions and forecast data. It displays information like temperature, humidity, wind speed, and weather conditions. <a href="https://chaitanyasasi.github.io/weather/">https://chaitanyasasi.github.io/weather/</a></p> <p><b>Calculator</b>, <i>Java Script, HTML, CSS, Bootstrap</i> A fully functional calculator web application The calculator allows users to perform basic arithmetic operations such as addition, subtraction, multiplication, and division. It features a clean, intuitive interface The app is designed for ease of use, with clear buttons and a responsive display that shows the entered numbers and results in real-time. <a href="https://chaitanyasasi.github.io/calculator-/">https://chaitanyasasi.github.io/calculator-/</a></p>
Certifications	<p><b>Full Stack Web development</b>, <i>Edureka ( online training provider)</i>      23 Dec 2023</p> <p>it was a great experience, I have successfully completed a comprehensive course on the MERN (MongoDB, Express, React, Node.js) stack, equipping myself with the skills to build full-stack web applications. Through hands-on projects and in-depth learning, I gained expertise in developing scalable, responsive, and dynamic applications, both on the front and back end. I am now proficient in managing databases with MongoDB, creating server-side logic with Express and Node.js, and building interactive user interfaces with React. This course has enhanced my problem-solving skills and prepared me for real-world development challenges</p>
